

Login as admin  
button (button of  
the main page)

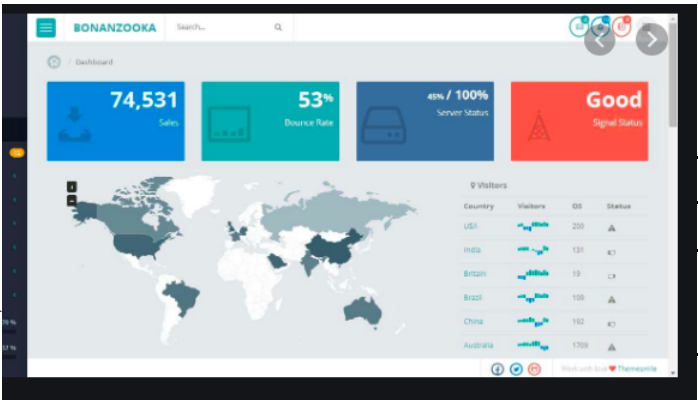

On click

Error

Success

button

Check  
situation

On click

It will show all clients, of course  
without their passwords, and  
their debts and deposited  
money and the total treasure of  
the bank separately

button

Block user  
account

On Click

This feature will give  
the possibility of the  
admin to "freeze" the  
account of users, who  
have not paid the  
debt in time

button

Modify interest  
rate

on clock

This feature will  
empower the  
administrator to change  
the rate of interest for  
the future clients of the  
bank

button

Show statistics

On click

This will show the statistics about the clients and the  
regions where they belong. It will help the bank to see  
which places are the best to invest more

button

Log out

on click

Obviously, it will log out the current administrator  
and the browser will show the main page again
